

SUN PROTECTION SOLUTIONS THAT INSPIRE.

Sustainable protection and customized solutions **from Becker.**

QUALITY
made in Germany

BECKER
for you. forever.

SAVE VALUABLE ENERGY WITH INTELLIGENT SUN PROTECTION.

The ongoing climate change presents us with new challenges—especially when it comes to regulating indoor temperatures in buildings. Intelligent sun protection solutions are therefore becoming increasingly important. They not only help reduce energy consumption but also enhance comfort and quality of life in residential and workspaces, potentially lowering energy costs by up to 15%. Whether for private homes or commercial buildings, our drive systems offer the perfect combination of intelligence, efficiency, and comfort.

Universal sun protection drives for awnings, screens, pergolas, or insect protection

- Optional fabric relief and tension can be activated or deactivated
- Blockage detection with multiple testing
- Switchable end stop behavior: Hard/Soft
- Auto-install function
- Available as wired, with integrated radio, or with integrated SMI technology

Sun protection drives for awnings with emergency manual operation

- The drive automatically detects the end positions after activation
- Optional fabric relief and tension can be activated or deactivated
- Blockage detection with multiple testing
- Switchable end stop behavior: Hard/Soft
- Auto-install function
- Available as wired or with integrated radio

Roller shutter and sun protection central control CentralControl CC41

- For controlling roller shutters and sun protection, lighting, household appliances, and more
- Data storage locally on the device, with optional remote access via secure connection
- Commissioning, configuration, and operation possible via the free CentralControl app
- Control via smartphone, tablet, or desktop
- Voice control via Amazon Alexa possible

SUSTAINABLE

by BECKER

Sun protection and roller shutter control with sun, wind, and rain sensors

- Monitoring and automated control
- Sun and light sensors prevent room overheating
- Wind sensors prevent damage
- Rain sensors protect textile systems from moisture
- Solar versions enable even easier installation without wiring and eliminate the need for battery replacement

SOLAR ENERGY

External radio receivers ideal for upgrading and retrofitting

- For sun protection and roller shutter applications
- Various versions allow installation in the box, as well as in flush-mounted or surface-mounted sockets
- Plug & Play with plug-in radio receivers
- Operating modes for adjusting functionality - depending on the application

Sun protection drives for ZIP applications

- Sensitive obstacle detection with multiple testing
- Blockage detection with multiple testing
- Fabric relief optionally activatable/deactivatable
- Auto-install function
- Available as wired, with integrated radio, or with integrated SMI technology

Bis zu **15%**
Energieersparnis möglich

By the way:
With the wide selection of different adapters, upgrading to Becker drives becomes a breeze!
